**Subject:** Gold King Mine Interview Questions - Region Interviews

Dan, David, and Ronnie,

Attached are the interview questions that address the following issue areas.

      a. Notification (including ESA notifications)
      b. Incident Command/Unified Area Command Structure (including site security)
      c. Data and Information Management
      d. Public Information and Communications

These may be adjusted a bit as we move through the interview process. If there is a question or significant issue that we may have missed or may not be addressed by asking a general question, please share your thoughts with us.

Regards,

Eric
